

Japan Sport Wellness Fukiya Association

13th July 2021

Becoming an Associate Organization of Japan Sport Association

We are very much pleased to announce that we, Japan Sport Wellness Fukiya Association, officially became an Associate Organization of a public interest incorporated foundation “Japan Sport Association” (hereinafter referred to JSPO) by the resolution of their regular council meeting held on 18th June.

Following to be an Official Member Organization of Japanese Para-Sports Association and National Recreation Association of Japan, it is a great honor for us to be an Associate Organization of JSPO (115 Official Organizations and 5 Associate Organizations, including us, are registered). We surely believe that the possibility of our future activities as a Sport Organization can be expanded by affiliating JSPO with the improvement of social recognition and expansion of social responsibility.

Sport Wellness Fukiya was first adopted as “Showcase Sport” in National Sports Festival 2013 in Tokyo”, then has been continuously adopted since National Sports Festival 2015 in Wakayama. Our real aim shall be that Sport Wellness Fukiya is adopted as an “Official Sport” of National Sports Festival, the biggest national sports event, sometime in the near future and it is absolutely necessary to become an Official Organization of JSPO to achieve this aim. Furthermore, aiming to be an Official Organization of JSPO must be the guidepost of sport organization like us who aim for public interest.

It took four years and a half since “To contact Japan Sport Association” first appeared in our plan of undertakings and achieving to be an Associate Organization of JSPO, however, it was really a good opportunity for us to work on improving corporate governance and putting our organization in order during this period. To be accepted as an Associate Organization of JSPO must be an objective appraisal of our organization. However, the road to become an official sport of National Sport Festival shall be still long and steep. Let us keep going sincerely and in an honest way as before so that we promote Sport Wellness Fukiya as one of the national sports.
