Sport Wellness Fukiya Goes to Middle East

New Overseas Branch is established in Iran. First Overseas Branch in the Middle East.

New overseas branch “Fukiya Faraji Iran Branch”, the first overseas branch in Middle East, is established in Karaj City, Islamic Republic of Iran. Karaj City is the state capital of Alborz Province, and located approximately 20km west of Tehran, capital of the country, having 2million population, the 5th largest city of the country. Karaj City is located at the southern foothills of Alborz Mountain range, south of Caspian Sea, and is well known as the tourist spot and the city of the concentration of educational and research institutions.

Branch General Manager Fraji (sitting in the front line with blue T-shirt) came to Japan in December last year with five branch members and passed the grading test of 3rd Dan-I. The branch was established with eight members, but a list of over 40 new members has already been submitted. We would like to support this branch so that Sport Wellness Fukiya can be bloomed large flowers in the Middle East.
